

THANK YOU FOR YOUR DOWNLOAD!

Hey, there! Thank you so much for trusting me to provide you with quality resources for your decorating journey! I hope they give you guidance and confidence in your shopping, budgeting and decision making.

The checklists were made to be printer-friendly but you can always select the greyscale option when printing. To print all the checklists, select 'range' and enter 3-4, or select the corresponding numbers for the pages you want to print. If you want to save paper or want a checklist on each side of the paper, don't forget to select the dual-sided printing option if your printer has it.

Visit [KaitlinMadden.com](https://kaitlinmadden.com) for more resources.

There you have it!
